Framework agreement for Train Staffing

Schedule No. 3 Rostering and Overtime working

5.3. Where a Train Operator has been continuously operating a train and cannot be relieved due to a service emergency they have to continue operating for up to two hours. They must not exceed the Line maximum (e.g. 4 hours 15 minutes or 8 hours 30 minutes) and once this is reached they must take the train as far as the first available siding or stabling point.

A service requirement does not constitute a service emergency, so when the normal duty length has finished and they cannot be relieved and there is no service emergency, they must take the train as far as the first available siding or stabling point.

Overtime Bands:

01 - 22 minutes	pay 15 minutes overtime
23 - 38 minutes	pay 30 minutes overtime
39 - 52 minutes	pay 45 minutes overtime
53 - 68 minutes	pay 60 minutes overtime
